SERVPRO OF FREEHOLD: Fire / Water / Mold – Cleanup & Restoration

Servpro of Freehold is an independently owned and operated restoration company specializing in the cleanup and mitigation of damage due to fire, water or mold. We also offer air duct cleaning, carpet cleaning and carpet/flooring sales & installation. We are fully insured for residential and commercial properties. We are experts in mold remediation and offer free estimates for schools. We have free Disaster Recovery Profiles (DRP) available for each of your facilities to help you organize all pertinent planning information in one location for easy retrieval by your on-site decision maker in case of an emergency. We always strive to restore your property "Like It Never Even Happened".

SCOLES FLOORSHINE INDUSTRIES

Started in 1951, we have served the custodial service industry for over 55 years. Throughout our history we have strived not only to supply quality products, but to offer our experience and training to maximize results. With cleaning challenges changing constantly and a push towards more environmentally friendly products, our staff is trained and ready to assist our customers achieve goals for a clean and healthy workplace while staying on budget.

Along with cleaning supplies, we also sell a variety of equipment from Windsor, NaceCare, Host, Proteam, Pacific and Mastercraft. We also have our own Repair Department to service any kind of equipment on the market.

Working together, our professionals can assess your current program, suggest changes and help in the training and implementation. Our goal is to make every workplace clean, safe and sanitary.

BREAKDOWN PRODUCTS

Breakdown Products manufactures Breakdown Plus+, an all natural product that automatically injects into drains/traps at the end of each day.

It breaks down grease, fats, starches, etc. It helps eliminate odors and much costlier maintenance fees. Over the long term we save our customers significant dollars. Our product originates from Rutgers University and is always delivered fresh. Preventive maintenance is always the way to go.
